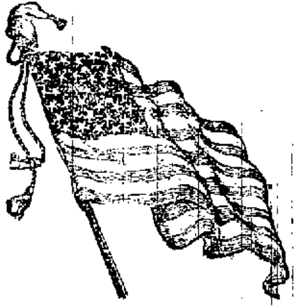
OFFICIAL PAPER OF THE CITY.



No flag but the Old Flag—the Red, White and Blue,
With the stars of a Union unbroken and true!
Arise and defend it! ye sons of the brave,
Whose blood bought the banner your valor must save.

THURSDAY MORNING, OCT. 30, 1862.

Brigadier General Stevens.

As noticed some days ago, the citizens of Olympia, W. T., held a large and respectable meeting, October 21st, for the purpose of eliciting a suitable public expression on the death of their distinguished fellow citizen, General Isaac I. Stevens. The following resolutions were introduced by General W. W. Miller, Chairman of Committee to draft the same, and were unanimously adopted:

Whereas, Brigadier General Isaac I. Stevens, of the U. S. Volunteers, while gallantly leading his division to a charge upon the rebel army at the battle of Chantilly on the 1st day of September, 1862, was instantly killed, whereby the Union army has been deprived of one of its most energetic and skillful leaders, the country of a statesman of high ability, this Territory of her ablest citizen, his family of the devoted husband, science of a noble, self-sacrificing and brilliant votary.

Therefore, Resolved, That in this severe blow one more evidence is given of the deplorable results of this most accursed rebellion; one more is added to the long catalogue of crimes for which the instigators of this vilest of conspiracies against constitutional liberty, and the best and most beneficent government yet instituted among men are morally responsible at the bar of public opinion, and that more terribly great final judgment.

Resolved, That we tender to the bereaved widow of the illustrious dead, our most heartfelt condolence at her insuperable loss; to his gallant boy so severely wounded by his side, our hearty sympathies for his multiplied afflictions; to his family generally and the circle of friends who mourn his untimely loss, our earnest exressions of profound sorrow and regret.

Resolved, That we commend to his gallant son, our own citizen, the example of his gallant father, who seized the sacred emblem of our nationality and carried it so defiantly into the thickest of the fray; that such devotion to the honor of that flag commends itself to every lover of his country; that so glorious a death is a proud heritage to the noble son of the departed—and from our own knowledge of the character of the deceased, was as full of honor and glory, as ever one so proudly ambitious could have coveted.

Resolved, That Washington Territory, in the demise of her former Governor and most assiduous Delegate in the National Congress, mourns the loss of her most illustrious citizen; that the gallant dead was her most munificent contributor to the war for national endurance; that in his death we are reminded of our duty to the National Union he loved so well, and would we properly revere his name, we will be loyal to the Government, true to its flag, and heartily endorse its every act to suppress this rebellion.

A committee of thirteen was also appointed "to select a proper person to deliver an eulogium upon the distinguished deceased and to adopt such further means as will successfully carry into effect the spirit of the foregoing resolutions."

A Slander.—We have no desire to enter into a contest of words with every pusilanimous old scamp who may accidentally have charge of the columns of a flipant sheet of doubtful character, both as regards decency and integrity of profession. Still we cannot let pass unnoticed an uncalledfor and unprovoked attempt to malign the private character of the publisher of the Oregonian, by old Newell of the *Mountaineer*, in his issue of Tuesday last. The old fellow seems to have something crosswise with him, because he imagined that the Oregonian endorsed the statements of another old gib-cat like himself, against Newell through the columns of one of our cotemporaries. Newell thought, or at least charged us with publishing the effusions of this particular rival of his, which we promptly and emphatically denied, telling him that C. A. Angello had never written a communication to us for publication that we had any knowledge of. It is true, that in a following issue, we stated that we believed this Angello was not guilty of certain charges made against him by Newell, but since then we have become convinced that we were somewhat deceived by the plausibility of Newell's friend Angello, and we are now satisfied that he is no better than Newell, perhaps not as good; but should Newell continue his slang towards us, we shall be compelled to conclude that it is "nip-and-tuck" between the two. We know nothing positive either for or against Angello, except as told us from reliable sources, all of which, however, agree in giving him anything but an honorable reputation. We have also heard serious charges made against the editor of the *Mountaineer*—mainly, however, with reference to his loyalty; Heretofore we have taken but little notice of either, as we cared but little about either, nor do we now care who comes out best, Newell or Angello, but there is one thing we desire to be distinctly understood, viz: we do not intend to become sponge holder for either. They must do their own fighting, as we intend to remain on the outside of the ring.

Vetoed.—Gov. Gibbs vetoed the bill submitting the seat of government question to the people, and the bill providing for two auditors of accounts for Marion county, on the ground of unconstitutionality.

Appointed.—Stephen Coffin, Sr., of this city, has been appointed Brigadier General in place of Rev. T. H. Pearne.

U. S. Depositary for Oregon

As recently announced by us, Mr. W. T. Matlock, of Oregon City, has been duly appointed United States Depositary for the District of Oregon. The following is a copy of his appointment and instructions, which we received from Mr. Matlock last evening:

Treasury Department, }
September 22d, 1862. }

Sir: You are hereby authorized to receive deposits on account of Internal Revenue Stamps.

You will issue your Certificates in duplicate, and inform depositors that the original must be forwarded to the Commissioner of Internal Revenue at Washington, accompanied by an order stating the quantity of each kind and denomination of stamps required. You will keep a special series of numbers for certificates issued for stamps, commencing No. 1, and forward at the close of each day's business, by mail, to the Commissioner of Internal Revenue, a schedule of deposits received, designating names of depositors, amount deposited by each, and the number of the certificates issued to each person. The Assistant Treasurer at New York has been instructed to transmit to you books of certificates for this special purpose, in the meantime you will use your ordinary certificates.

In your daily return made to the Secretary of Treasury, you will include, and designate as such the "amount received on account of Internal Revenue Stamps."

Dalles Correspondence.

Dalles, Oregon, Oct. 28th, 1862.

Arrest of a Robber—A whole band of thieves.—On Sunday last, a returned miner named Geo. A. Liebe, made complaint to J. S. Reynolds, Justice of the Peace, to the effect that a robbery had been committed upon him and his partner, one Fred. Wininger, at a place called Sand Creek, near Florence City, Idaho Co., W. T., on or about the 23d of September last, by four persons whose names were unknown to the complainant, that by violence and threats they forced Messrs. Liebe & Wininger to deliver to them $660 in gold dust, and one Colt's revolver. This robbery was committed by breaking into complainant's tent about one o'clock at night. Mr. Liebe further stated that one of the four persons who robbed him had been seen in the Dalles, and that he could identify him. Having made oath to the substance of the above, Justice Reynolds issued a warrant for the arrest of the suspected party, which having been duly served, one White, alias Jos Rochester, alias Sharp, alias Jas. Robinson, alias "Dumby" (having played that rôle when he came to this part of the country from California) was taken into custody and made to appear before Justice Reynolds to answer the grave charges preferred against him. The defendant asked for a continuance of the trial till the next day, which was granted—he being required to give bail in the sum of $1000 for his appearance, in default of which he was committed to jail. On the succeeding day the preliminary examination resulted in the prisoner being bound over in the sum of $1000 to appear on the 1st of December next, to answer a requisition from the Governor of Washington Territory, in default of which he was jugged for safe keeping. Very little doubt appears to exist of the guilt and identity of the prisoner, and none at all exists in regard to there being an extensively organized band of robbers in the upper country, having their unholy ramifications extending down to and perhaps beyond this point.

It appears that efforts have been made to release the accused, by some of his friends, in a manner that warrants the supposition that he has no hope of being acquitted if brought to trial. Yesterday one of them asked the sheriff to pass in to him a couple of candles, but our sheriff was too old a coon for that, as concealed in the package was a small phial of acid, which is a very good thing to cut off iron bars, and so the poor fellow remains in darkness.

P.S.—It is rumored that "Dumby" is well known about Sacramento, having been to see the prison brig in that city.

Busy Times for Justices and Recorders.—There have been since Sunday morning five criminal cases before the Justice's court, and four ditto before the Recorder, in only one of which no cause for action was found and the defendant discharged—the remainder being bound over or fined.

Our Mails.—There is a good deal of complaint about the irregularity of our mails, and not without cause. Is there no remedy? Have the contracts been so let that the carriers can get the mails through at their own convenience? Who ought to look into this? Indulgence, in such fine weather as we are now having, is about "played out."

A Chance for a Speculation.—Potatoes are selling here for $2 50 per 60 pounds. Cannot somebody buy some in Portland and make a handsome thing by sending them up here at a more moderate figure?

A. HOLBROOK.

The Persistent Train.—George Francis Train spoke at the Town Hall, Andover, Massachusetts, on Friday evening, September 26th. He took special pains to denounce General Fremont, Governor Andrew and Senator Sumner, and proposed three cheers for General McClellan. They were given—and were followed by three more for Fremont. Train declared this treasonable, and the audience broke up.

The Horrible Tale of the Southern Hospitals.—One gets an appalling idea of the sacrifices that have already been made to the Moloch of Rebellion, by an official return of the Surgeon General at Richmond, who states that up to the present time one hundred thousand sick and wounded soldiers have been received in the hospitals of that city! From these examples one may form a conception of the enormous havoc that the war has made in the Southern population.

Drowned.—A span of horses belonging to Messrs. Thatcher & Rickey, backed into the river at Doak's ferry, on the 25th inst., and were drowned.

By Overland Telegraph.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

Dates to Oct. 22d.

Louisville, Oct. 23d.—Trains are running regularly to Lebanon and Bowling Green.

St. Louis, Oct. 23d.—General Merrill telegraphs from North Missouri, that about [illegible] guerrillas surrendered their arms to the Provost Marshal of Monroe county.

Col. Chapman, chief of Gen. Curtis' staff, who has just arrived from a council of over 10,000 Indians, in Southern Kansas, says they are anxious to fight the rebel Indian regiments in their own way.

New York, Oct. 23d.—The [illegible] with dates from New Orleans to the 12th, has arrived. The *Delta* of the 9th, states that the transport *Ceres* exploded off St. Joseph Island. Twelve of the passengers and crew were killed, and 21 injured—some severely.

Galveston (Texas) papers received at New Orleans, state that several attacks had been made upon Corpus Christi by our gunboats, and nearly every house hit by shot or shell. The gunboats were replied to by batteries, and hauled off.

A dispatch from Mount Vernon, Ky., of the 21st, says that Smith's division of Crittenden's corps, pursued the enemy to within 40 miles of Cumberland Gap, the rebels flying in the utmost precipitation, and leaving broken down men at every mile of the march. Complete devastation marks the enemy's trail. They have robbed the mountaineers of everything so that their immense train may not be drawn upon until the last moment.

Cairo, Oct. 23.—In consequence of information that 2,000 rebels were assembling for the purpose of attacking our forces on main land opposite Island No. 10, all property was removed to a place of safety.

It is reported that Generals Van Dorn and Lovell have been charged with incompetency, and ordered to report to Richmond. There is no confirmation of the report that Van Dorn was shot by one of Price's staff.

Washington, Oct. 23d.—A reconnoissance from the Army of the Potomac to Hedgeville, seven miles northwest of Martinsburg, was made yesterday, by two squadrons of Pennsylvania cavalry. Our force drove in the rebel pickets, and then charged the body of rebels. They took 10 prisoners, including two officers. Our loss nothing.

The rebels left Martinsburg on Tuesday. It is believed that a portion of them went to Williamsport, and a part to Shepardstown.

New York, Oct. 23d.—The schooner [illegible] was burned on the Hudson river last night. Four persons perished.

Fortress Monroe, Oct. 22d.—All the machinists at Portsmouth, Va., thirty in number, have suddenly disappeared with all their tools. They are supposed to be skedaddling for rebeldom.

Washington, Oct. 22d.—The Intelligencer publishes a long paper prepared by Gen. Scott, dated March 30, 1861, describing the course he pursued in the early stages of rebellion and the difficulties he had to contend with during Buchanan's administration. The paper throws a flood of light on the history of the rebellion in its incipient stages. It establishes the patriotic anxiety and wise watchfulness of the General in Chief to prepare for the coming storm, and his earnest repeated efforts to prevail on Government to march on and secure Southern forts against attack. The cause of this failure, which is now evident, resulted from the indecision of the executive, if not the members of the Cabinet, in whom the President reposed misplaced and abused confidence. The paper offsets the abuse of journals regulated only by party tests.

San Francisco, Oct. 25th.—On Sept. 15th, Collector Rankin wrote to Gov. Andrew of Massachusetts, tendering a cavalry company commanded by Capt. Reed, First Light Dragoons of this city, the company furnishing everything but horses and passage east. A telegram was received to-day stating that the Secretary of War has authorized Massachusetts to accept this company, and the Mayor of Boston agrees to pay $200 per man to cover transportation. Capt. Reed commences enlisting and expects to sail by Nov. 21st. Every man must be a first class rider, and pass a strict military examination. Col. Kewen has been released from Alcatraz on taking the oath.

San Jose, Oct. 24th.—F. Hernandez, sentenced to be hung here to-day, broke jail and murdered the jailer last night, and escaped. The Sheriff offers a reward of $3,000 for his arrest.

Springfield (Mo.), Oct. 21st.—A band of rebels, two hundred in number, were discovered on Monday, seven miles southeast of Marshfield, endeavoring to make their way to West Plains, Arkansas. They were attacked by a detachment of the Tenth Illinois Cavalry and completely routed, with a loss of four killed, nine wounded and fifteen captured. Our loss was one killed. The scattered enemy were pursued by our forces. The result is not known.

Washington, Oct. 22d.—The Potomac flotilla has lately been doing an extensive business in capturing contraband goods and men in the rebel service. To-day, a party were brought to the Navy Yard who were captured while attempting to cross from Virginia to visit their homes in Maryland. Rebel army passes and many letters were found upon their persons.

There does not seem to be any apparent reason entitling to serious consideration the rumors afloat in New York this afternoon, that Gen. McClellan has been superseded in the command of the Army of the Potomac.

Cairo, Oct. 21.—On Saturday morning, the steamer *Catahoula* was fired into by rebels thirty miles below Memphis. They wounded one man. The same evening the steamer *Gladiator* was attacked by a band of rebels while loading cotton, twenty-two miles below Memphis, and two persons were killed and seven wounded. They then fired the boat, but the flames were extinguished without doing much damage. The boat escaped.

The rebels continue to burn cotton in the vicinity of Memphis. It is said that Price has been reinforced recently by fifteen thousand Texans, and that more are arriving daily.

St. Louis, October 21.—Helena (Arkansas) advices to the 17th have been received at headquarters. Everything was comparatively quiet. The defensive works around Helena were nearly completed.

In a skirmish on the 11th, twelve miles west of Helena, the Federals captured thirteen men of the Twenty-first Texas Regiment, including a Lieutenant Colonel. Their other loss is unknown. The Federal loss was four killed, six wounded and fourteen missing.

Springfield, (Mo.,) October 21.—An escaped prisoner from General Rains' camp gives the following statement in regard to the rebel forces in Northwestern Arkansas: McBride and Parsons have ten thousand men; Rains has 15,000, of which 10,000 only are effective. Shelby has 4,000 or 5,000. The general plan for the invasion of Missouri was for the rebels to march in three columns, under Cooper, Parsons and Rains. The first points to be taken were Springfield, Mount Vernon and Bolla. The belief was general that there were only 5,000 Federal troops in this portion of the State. Hindman made a speech to his troops a short time since, and promised that the stars and bars would float all along the Mississippi and Missouri rivers before Christmas. The rebel army is represented as being in a frightful condition; only about three fourths of the soldiers are armed, and many of those are only provided with shot-guns and squirrel rifles. A dozen regiments are without tents, and the lack of clothing and blankets was generally felt. Hundreds of men were barefooted, bareheaded and ragged. Our informant was amused at seeing scores of cavalry who had large Mexican spurs buckled to their bare heels. Provisions were very scarce, and bread and water with an occasional relish of beef without salt, constituted the principal diet. There seemed to be but little discipline or order among the officers or men of the rebel army.

Louisville, Oct. 21.—Gen. Jeff. C. Davis, who killed Gen. Nelson, has been released from arrest and ordered to report at Cincinnati for duty.

Washington, Oct. 21.—Orders have been issued directing the occupancy for Government purposes of the property in Washington of persons known to be in the service of the rebels.

Portland R. A. Chapter No. 3 will hold a SPECIAL CONVOCATION this evening at the usual time and place. Labor in the P. M. E. M.'s Degree. R. A. M.'s in regular standing are invited to be present.

FIELD'S STEAMED OYSTERS!

MR. A. FIELD, whose Oysters have long enjoyed the highest reputation in this market, has recently invented an entirely new process of packing which possesses every advantage over the one hitherto employed. It so preserves the natural flavor, freshness and shape of the Oyster that they may be either Stewed, Fried, Scolloped or Fancy-Roasted—in fact cooked in any manner adapted to those just taken from the shell. They will not be broken into pieces by land travel, however lengthy, and will retain their sweetness, after the can is cut, longer than secured by any other method.

THE DAILY OREGONIAN [illegible] Book Store, and at Charles Barrett's [illegible]

CITY COUNCIL.—The City Council again failed to transact any business last evening. Three weeks and more have elapsed [illegible] without any business pertaining to municipal affairs having been attended to. [illegible] last night, the Council adjourned [illegible]ly, and last night a quorum failed to be in attendance. We are compelled to say that well founded suspicion rests with many who are acquainted with certain matters that the main cause of this neglect to attend, and after attending, to remain in session long enough to transact business, is in consequence of a desire to stave off or prevent the passage of a resolution relative to the completion of Engine House No 1. The absentees last night were Messrs. Coffin, Denison, Hall, [illegible] and Holmes. The first named of these gentlemen, Mr Coffin, is absent from the city, and the second, Mr Denison, took a benefit last night at the Theatre, which prevented his attendance, but we are unable to find an excuse for the other two gentlemen. It will also be recollected that the time has arrived for the city tax list to be handed over to the city Collector, but it is hoped that these gentlemen did not absent themselves from the Council for that cause. There is also another matter that should be attended to, and that is the filling of the vacancy occasioned by the resignation of Mr Breck of the Second Ward. This Ward has had only one representative in the Council for a long time, as Mr Denison, from press of other business, has been unable to attend for several weeks past. In fact there are many things that should be attended to, as Winter is now setting in, and much unfinished work remains that should not be further neglected.

It is not our purpose to find fault with members of the Council, as we well know it is an unpleasant, and to a great extent unappreciated position for any man to occupy; but when gentlemen voluntarily take upon themselves the duties and responsibilities of such offices, we maintain that they should endeavor to fulfil their pledge as near as possible. We further maintain that it is not the part of true valor or fair manly opposition for gentlemen to "dodge" or run from certain propositions which they hope to defeat. If they are honestly opposed to certain measures, let them say so by their votes in open, fair sessions; and if any odium or dissatisfaction should afterwards attach to the Council in consequence of its adoption, they can easily and honorably clear themselves therefrom. We believe in always standing up to the work fairly and squarely, and if a majority of those with whom we are acting decide against our wishes, it is nothing but just, constitutional and right that we should honorably and peaceably submit. We hope, therefore, that we shall see and hear of no more "skeedaddling" to avoid issues that may arise in the course of the deliberations of our City Council.

TEMPERANCE LECTURE.—We were unable to attend the lecture of Mr J. C. Vinton, last evening at the M. E. Church, but we are informed that a fair audience was present, and that the speaker fully met the expectation of his hearers. His lecture was full of sound practical sense, judiciously interspersed with wit and amusing illustrations, making it altogether agreeable and entertaining. We understand that Mr Vinton will lecture again this evening, at the same place, in which he proposes to give the ladies a receipt for curing drunken husbands. As this is a highly beneficial and useful receipt, it is hoped that every lady in the city will be there—not that all have drunken husbands, but that such important information may be widely spread. Of course, if the ladies attend, the gentlemen will also.

A MISTAKE.—We have been requested to correct a statement made in the "Commercial" last evening relative to the arrest of a drunken fellow on the streets, some time last week, and while on the way to the "lock up" was robbed of everything valuable about his person by two or three men who had been requested by the watchman to assist in taking him thereto. We are informed by the City Marshal that the story is altogether fabulous, as but one person was taken to the "lock up" during the week, and that was old Charley McKay, and he has made no complaint of losing anything at the time.

OREGON MIST.—Indications in the atmosphere for the past two days warn us that the much dreaded rainy season of this country will soon be upon us. However, let it come—we were here first.

BENEFIT OF MR J. P. DENISON.—A large and respectable audience attended the benefit of Mr. Denison at the Theatre last night. The performance was in the main very good. Miss Virginia Lawrence still continues to receive enthusiastic applause. Mr R. H. [illegible] also deserves special notice as an excellent [illegible]ger; and Billy Sheppard in the "[illegible] ole Virginny" did quite well.

MINES.

Oregon is emphatically a Mining State. The gold mines in the southern portion of the State, have long been a source of considerable revenue; but, until very recently, the extent and importance of the mining interests of the State, was confined to that region. Within the last two years, gold deposits have been discovered in Eastern Oregon, and the adjacent districts of Washington Territory, surpassing in richness any that have been discovered heretofore, even in California. The known extent of these mines, may be said, as yet, to be limited only to the extent to which prospecting has been carried. New discoveries are being made almost every week, and the amount of treasure brought down, increases continually. Up to this time, the yield of Powder and John Day Rivers, has scarcely began to reach us. While more gold is taken from both of these streams than from Salmon, none, comparatively has been sent down, except from the last named district and the Oro Fino placers. Still the amount taken out during the past season is very great.

In Jan'y and Feb'y, 1862, Wells, F. & Co's Express brought down	$ 88,300
In March	130,600
In April	268,550
In May	307,100
In June	290,554
In July	358,250
In August, to the 21st	297,400
Total to August 21st	$1,752,554
In the same time, by other hands, (estimated,)	2,000,000
Invested in business in that country	300,000
In the hands of miners still there	500,000
Total taken out	$4,552,554

This estimate does not include the yield of the John Day and Powder River mines, which are said to have produced already an equal amount, though operations in those localities did not commence until very late in the season.

Remembering that the above statements only reach the 21st of August, and that the mines are yielding better since that date than previously, and that the mildness of the climate on Powder and John Day Rivers will allow operations to go on almost the entire year, it is by no means an extravagant supposition, that the product of the mines in 1862, will amount in the aggregate, to $12,000,000. From men who have spent years in the California mines—who are professional miners, and understand themselves thoroughly in the matter—and from the actual discovery of extensive quartz lodes, in addition to the general geological character of the country, the public mind is already convinced that more treasure will be taken out next year than this, and that the mines now open will not be exhausted for years, to say nothing of the prospect of further discoveries. But there can no longer a question as to the fact that all the regions of mountainous country forming the Blue Mountains, and other minor ranges, is a gold bearing district, and destined to pour a continuous stream of wealth into the lap of the people of Oregon.

These mines will make farming in Eastern Oregon highly profitable. Stock, also, will find a ready market at remunerative prices. Persons cultivating the soil, will find their employment as lucrative as that of any other class; and nothing will be required of them but a good degree of industry, to secure plenty and prosperity.

The effect of these mines will be to give such a stimulus to all other interests of the State, as will cause Oregon to take up her line of march in good earnest, on the highway of improvement.

Silver, Lead and Copper, are found in the State, and may prove valuable resources.

Iron ore yielding sixty per cent of pure metal, of excellent quality, is found six miles from Portland, in quantities literally inexhaustible. Some of this ore has been worked into nails and implements, but only for experiment. At other points there is any quantity of iron. It is estimated that the State contains a sufficiency of iron ore, if worked, to supply almost the entire Nation. Nothing but enterprise is wanted to render these now useless rocks, a source of incalculable wealth to individuals, and to the State.

Coal is found in several places. In Coos County, it is worked to some extent, with profit.

HARBORS.

There are already opened four ports of entry in this State. The most important harbor is that of the Columbia River; but it is not the only one likely ever to assume much importance. Umpqua River, Port Orford and the Coquille want nothing but the settlement of the rich districts surrounding them, to bring them into consideration as commercial points; while vessels have entered several others and found good harbors. Yaquina Bay, first brought to notice only a year ago, is said to be an excellent harbor, extending thirty miles into the coast, and easy of access from the heart of the Willamette Valley.

HEALTH.

It would seem invidious to discriminate in favor of any portion of the State of Oregon, in respect to its salubrity. Every thing that nature could do to render a country perfectly healthful has been done for this State. The mountain air, not less than the mountain water, has a vivifying influence; and the gentle breezes of summer, coming fresh from the sea, are a pleasant and effectual preventive against all the violent diseases ordinarily to be feared in dry and sultry regions.

The climate of Oregon is thought to be unfavorable to the health of persons who are predisposed to pulmonary affections. This is probably true. Notwithstanding this general opinion, however, it is found that fewer persons die here of consumption, in proportion to the population, than in any one of the New England States. And it is certainly beyond question, that in every other respect, there is no other State in the Union, worthy to be compared with this for salubrity of climate.

Persons are frequently met with here, who had been unable to perform any labor for years before leaving the east, on account of ill health, but have become rugged and strong in this country, and are now regularly engaged in their callings, without any physical inconvenience whatever.
